

## **What You Should Know About Counseling**

### **What is counseling?**

The word “counseling” is interchangeable with the word “therapy”.

Counseling is a relationship in which a professionally trained person (therapist) helps you to better understand yourself and solve problems. Seeking counseling is not a sign of weakness. Many people find that professional assistance is a mature and positive step toward success.

Counseling takes place in a private, secure, uninterrupted setting.

Counseling is a collaborative process in which the therapist acts as a facilitator so that awareness and change can take place. One goal is for you to learn new skills to help you resolve your current problems and become more capable of solving new problems on your own in the future.

Counseling involves talking about yourself, including your family and personal history as well as your thoughts and feelings.

Counseling is also referred to as “therapy” or “outpatient mental health services”.

### **What to expect in the first session**

After you have scheduled your first appointment, you may find yourself experiencing anxiety and wondering what you will talk about. This worrying is normal. Therapists are aware that meeting with a “stranger” to discuss personal concerns can be intimidating. Remember that your therapist is a trained professional who will work at establishing a comfortable and supportive environment for you. Your therapist will want to focus on you and may ask you a number of questions about yourself, your history and your current problems. An appointment “hour” is typically 53+ minutes and is scheduled on a weekly basis to begin with. Your therapist will also discuss your insurance coverage and/or payment arrangements with you. If the therapist determines that you would benefit from additional services, this will be discussed with you and referral(s) made.

### **What is expected of you?**

To attend sessions and let your therapist know 24 hours in advance if you will need to cancel and/or reschedule an appointment.

To talk openly and honestly about yourself.

To complete tasks or homework assignments.

To let your therapist know if you have questions about the counseling or feel that you are not making any progress.

To let your therapist or the business office know if you are having difficulty paying your bill.

### **What is a Treatment Plan?**

During the course of counseling, the therapist develops a written Treatment Plan which is a plan of action based on the principles, methods and theories of counseling. The Treatment Plan is aimed toward the prevention, treatment and resolution of problems and/or mental health disorders. The plan includes a descriptive statement of each problem and specifies goals, objectives and interventions. The purpose of a written Treatment Plan is to document the course of treatment, provide a structure for measuring progress, and allow for accountability. Client collaboration and cooperation is important for developing and complying with the Treatment Plan.

### **How is therapy paid for?**

Depending on the type of education and experience of the provider, fees can range from \$50 to \$200 an hour. Many people have health insurance that includes some type of coverage for mental health services. You can discuss your coverage with your insurance company, human resource person at your place of employment, or with the therapist. Often, insurance covers a large portion of the fee and you have a co-pay. Managed care insurance plans may require authorization for services. You must sign an Authorization for Treatment and Billing Services form in order for us to bill charges to your insurance plan. If you are uninsured, your insurance does not cover counseling, or you chose not to use your insurance, you are responsible for full payment at the time of service. It is acceptable to discuss payment arrangements (credit card, special arrangements for payments, collection practices) with your therapist. If you would like to use a credit card to pay for services, you must complete a Credit Card Payment Consent form. This allows us to bill your credit card for services rendered. If you would prefer to pay by credit card without our involvement, you can do so by logging onto [professionalcharges.com](http://professionalcharges.com), selecting the "Make A Payment" button and completing the Payment Form. You will need to enter the Lakeview Counseling Tax I.D. number — 383269851.

Charges will appear on your credit card statement as "ProfessionalCharges.com".

### **Understanding the different types of therapists**

Psychiatrists are medical doctors (M.D. after the name). They have completed medical school and a residency in psychiatry. They are able to write prescriptions and administer medication(s).

Psychologists have a Doctorate degree in psychology (PhD after the name) and are licensed to practice in their state. They have completed graduate school, including a doctoral program. They are able to provide a variety of forms of testing and therapy.

Social Workers have completed a Master's degree in Social Work (MSW, LMSW, or ACSW after the name). They are licensed to practice in their state and have unique training in order to provide services for individual and family problems.

**All therapists at Lakeview Counseling have completed the following education and training requirements:** completion of a Master of Social Work degree or a PhD in Clinical Psychology; completion of a minimum of 5 years postgraduate supervised clinical experience; licensure as a "Certified Social Worker" or "Clinical Psychologist" with the State of Michigan; membership in the National Association of Social Workers or American Psychological Association; acceptance into the Academy of Certified Social Workers; and participation in continuing education activities.

To file a complaint about a therapist, you can contact the State of Michigan, Department of Community Health, or the national association in which the therapist has membership.

### **What You Should Know About Confidentiality**

The security and confidentiality of all records is protected by both Federal and State law. The Health Insurance Portability and Accountability Act of 1996 (HIPAA) outlines regulations related to the release of information about you.

#### **What is protected:**

Any information about a person's health, health care or payment of health care — this includes mental health and behavioral health issues; information that identifies a person; information created or received by a covered health

care plan or provider; and all medical records and other individually identifiable health information used or disclosed by a covered entity in any form, whether electronically, on paper, or orally.

***Protected health information may not be disclosed by the clinic or a therapist without the informed and voluntary written consent or authorization of the client.***

The clinic is required to obtain a client's consent for use or disclosure of client information for purposes of health care treatment, payment and operations.

Any conversations or communications you have with your therapist are private and confidential except under the following circumstances:

- disclosures required by law
- disclosure about victims of abuse, neglect or domestic violence
- emergency circumstances
- identification of the body of a deceased person or the cause of death
- permitted disclosures for public health activities (e.g.: reporting diseases, collecting vital statistics)
- research, generally limited to when a waiver of authorization is independently approved by a privacy board or Institutional Review Board
- oversight of the health care system
- limited law enforcement activities
- judicial and administrative proceedings
- disclosure to avert a serious threat to health or safety; activities related to national defense and security
- case consultation (client name and demographics are not disclosed)
- audited review by your insurance carrier
- malpractice complaint or investigation

***Please be aware that psychotherapy notes are held to a higher standard of protection because they are not part of a medical record and are never intended to be shared with anyone else.***

**Client Registration (Minor)**

LEGAL NAME: \_\_\_\_\_ Today's Date: \_\_\_\_\_

Date of Birth: \_\_\_\_\_ Age: \_\_\_\_\_

The minor identifies their gender as: \_\_\_\_\_ Pronouns? \_\_\_\_\_

The minor's gender assigned at birth:  Male  Female

Street Address: \_\_\_\_\_ Email address: \_\_\_\_\_

- (3) Complete and submit your payment information.

Charges will appear on your credit card statement from "Merchant Bank".

If you have any questions, please contact us.

## **Telehealth Informed Consent**

I, \_\_\_\_\_, hereby consent to participate in telehealth communications with \_\_\_\_\_, as part of my psychotherapy. I understand that telehealth is the practice of delivering clinical health care services via technology assisted media or other electronic means between a practitioner and a client who are located in two different locations.

I understand the following with respect to telehealth:

1. I understand that I have the right to withdraw consent at any time without affecting my right to future care or services.
2. I understand that there are risks, benefits, and consequences associated with telehealth, including but not limited to, disruption of transmission by technology failures, interruption and/or breaches of confidentiality by unauthorized persons, and/or limited ability to respond to emergencies.
3. I understand that there will be no recording of any of the online sessions by either party. All information disclosed within sessions and written records pertaining to those sessions are confidential and may not be disclosed to anyone without written authorization, except where the disclosure is permitted and/or required by law.
4. I understand that the privacy laws that protect the confidentiality of my protected health information (PHI) also apply to telehealth services unless an exception to confidentiality applies (i.e. mandatory reporting of child, elder, or vulnerable adult abuse; danger to self or others; I raise mental/emotional health as an issue in a legal proceeding).
5. I understand that if I am having suicidal or homicidal thoughts, actively experiencing psychotic symptoms or experiencing a mental health crisis that cannot be resolved remotely, it may be determined that telehealth services are not appropriate and a higher level of care may be required.
6. I understand that during a telehealth session, we could encounter technical difficulties resulting in service interruptions. If this occurs, end and restart the session. If we are unable to reconnect within ten minutes, please call (231) 929-0300 to discuss, since we may have to re-schedule.
7. I understand that my therapist may need to contact my emergency contact and/or appropriate authorities in case of an emergency.

### **Emergency Protocols**

I need to know your location in case of an emergency. You agree to inform me of the address where you are at the beginning of each session. I also need a contact person who I may contact on your behalf in a life-threatening emergency only. This person will only be contacted to go to your location or take you to the hospital in the event of an emergency.

In case of an emergency, my location is: \_\_\_\_\_

and my emergency contact person's name, address, phone is: \_\_\_\_\_

I have read the information provided above and discussed it with my therapist. I understand the information contained in this form and all of my questions have been answered to my satisfaction.
